6

The diagram illustrates three ways to represent the number 7 on a number line from 0 to 9:

- Example 1:** The number 7 is placed above the tick mark for 5 and below the tick mark for 9. There are 'X' marks at the positions for 6 and 8.
- Example 2:** The number 7 is placed above the tick mark for 9 and below the tick marks for 6, 7, and 8.
- Example 3:** The number 7 is placed above the tick mark for 9 and below the tick mark for 9. A '5' is placed at the position for 10.

7

The diagrams show the construction of a Huffman tree for the sequence 4, 4, 4, 4, 4. The nodes are labeled 0, 4, and 5. The connections are as follows:

- Diagram 1:** Node 0 is connected to node 4, and node 4 is connected to node 5. The root is 5.
- Diagram 2:** Node 5 is connected to node 4, and node 4 is connected to node 5. The root is 5.
- Diagram 3:** Node 5 is connected to node 0, and node 0 is connected to node 4. The root is 5.
