He had a lot to say
He had a lot of nothing to say
We'll miss him
We'll miss him
He had a lot to say
He had a lot of nothing to say
We'll miss him
We'll miss him
We're gonna miss him
We're gonna miss him

[Chorus 1]

A5 B5 E

So long

G5 B5 E

We wish you well

A5 B5 E

You told us how you weren't afraid to die

G5 B5 E

Well, so long

A5 B5 E

Don't cry here

G5 B5 E

Or feel too down

A5 B5 E

Not all martyrs see divinity

G5 B5 E Em

But at least you tried

[Verse 2]

Em

Standing above the crowd
He had a voice that was strong and loud
We'll miss him
We'll miss him
Ranting and pointing his finger
At everything but his heart
We'll miss him
We'll miss him
We're gonna miss him
We're gonna miss him

[Chorus 1]

What it was that you had said to me

I'm too smart when you're invisible by the bone symbol on you
So he bashes his skull through the window while looking out to the sea
Like torment of my ego

And we're amused by this

[Verse 4]

Esus2

Standing above the crowd
He had a voice that was strong and loud and I

Swallowed his facade because I'm so

Eager to identify with

Esus2

Someone above the ground

Someone who seemed to feel the same

Someone prepared to lead the way, and

Someone who would die for me

[Pre-Chorus]

E5

Will you?

Will you now ?

Would you die for me ?

Don't you fucking lie

[Chorus 2]

E5

Don't you step out of line

Don't you step out of line

Don't you step out of line

Don't you fucking lie
